# trade price list 2023/24 EURO

Dear HP VELOTECHNIK Partner,

With HP VELOTECHNIK, you and your customers are not only on the right track, but also get around quickly. We are the first recumbent manufacturer in Europe to offer two- and three-wheeled S-pedeles and, as a vehicle manufacturer recognised by the Federal Motor Transport Authority (KBA), we also supply them with type approval and COC papers valid throughout Europe. This means that nothing stands in the way of unlimited riding pleasure at up to 45 km/h throughout Europe!

With our completely newly developed *Delta tx*, we present a three-wheeled model with a particularly low entry, classic chopper steering and an impressively low total weight. In order to make the bike particularly comfortable and safe for the target group, for the first time in our 30-year company history we are relying on a design with two wheels at the rear and one wheel at the front. With this, HP VELOTECHNIK underlines that we undogmatically implement the right recumbent concept for the different usage requirements of your customers.

From the beginning of 2024, the *Delta tx SE* will expand our range of pre-configured *Special Edition* models. All SE models are available both individually and as part of your optional pre-order with an attractive price advantage - contact us!

On the following pages you will learn more about us, our products and how to create a successful business relationship with us. We are looking forward to an outstanding recumbent year ahead!

Your HP VELOTECHNIK team

## About HP VELOTECHNIK

Speed, ergonomic comfort, and fun attract people when they start investigating recumbents. With 30 years of bicycle know-how, Daniel Pulvermüller (Eng. MSc.) and Paul Hollants of HP VELOTECHNIK set out to create something new: a vehicle that fulfilled the vision of an ideal HPV (Human Powered Vehicle) being far more capable anything previously available.

The HP VELOTECHNIK's design concept has become a classic: the fully-suspended, compact recumbent, known as the Streetmachine Gran turismo. Completely designed around the human form, the Streetmachine Gte combines a luxurious full suspension ride with a completely ergonomic riding position. Excellent aerodynamics and mechanical efficiency provide outstanding performance.

A comfortable, fast, and luxurious ride can be enjoyed with every recumbent in our range: *Speedmachine*, *Speedmachine S-Pedelec*, *Streetmachine Gte*, *Grasshopper fx* and the all-new *Delta tx* as well as the *Scorpion*, the *Scorpion fx*, *Scorpion fs 20*, *Scorpion fs 26*, *Scorpion fs 26 Enduro*, *Scorpion fs 26 S-Pedelec*, *Scorpion plus 20*, *Scorpion plus 26* not to forget the *Gekko fxs*, *Gekko fx 20*, *Gekko fx 26* and the *Gekko 26* trikes.

Since the company founding in 1993, we've been working with a cycle-enthusiastic team in Kriftel, a small town located west of Frankfurt in the middle of Germany, designing and optimizing both recumbents and their accessories.

We focus development, assembly, and marketing. Frame building, with its highly-demanding welding techniques required for the thin-walled aluminum alloy tubes, laser-cutting of reinforcement parts, and powder coating is only done by specially selected, qualified partners.

## Our business philosophy

Productive customer relations play an important role in our philosophy. We believe that fulfilling the needs of recumbent riders means having an outstanding development process including test riding, individual support, a quality workshop, and innovative accessories on hand. Experience has shown that this advantage is best provided by qualified local bicycle dealers. We sell our bikes only through a selected dealer network and have created the HP VELOTECHNIK dealer program accordingly:

- ✓ Our modular build-to-order system dispenses with difficult to calculate and capital binding pre-orders. You order the customer's vehicle with us only when you have concluded the transaction with your customer.
- ✓ As a HP VELOTECHNIK's stockist or premium dealer you highlight your recumbent competence and profitable partnership with one of the world's leading recumbent manufactures.
- ✓ Your showroom presents with the help of carefully chosen demo models, which you will order at especially attractive conditions, as a stockist or premium dealer.
- ✓ We forward all customer inquiries directly to our Stockist and Premium dealers, whether they occur during events, via mail or e-mail, or by phone, and fax.

Your commitment is rewarded in multiple ways: attractive purchasing conditions, minimal investment with no obligatory pre-order (you can, however, place a pre-order for our *Special Edition* models), and our direct support in attracting new customers to your store. This is HP VELOTECHNIK's definition of a profitable partnership.

HP VELOTECHNIK dealers can expect professional marketing, straightforward order processing, reliable delivery dates, and short production times. We expect our dealers to offer extensive test rides and proper assembly and final set-up of the bikes prior to delivery to the customer.

We wish our bikes to be sold because of their outstanding quality and great ride, not because of price dumping, so please do not advertise discounts. You'll be rewarded in the long term with satisfied customers and a profitable margin!

## HP VELOTECHNIK's Dealer Programs

You profit from our three dealer level programs, which will ease your entry or advancement in the recumbent sector. You receive the discounts for new orders following the conclusion of the dealer contract exclusively for the models you have chosen as demos. The full range of HP VELOTECHNIK products still remains at your disposal.

You receive discounts for subsequent parts orders only if these parts are covered by the parts lists for your listed demo models. The %-symbol indicates such products in the price list.

### Standard Dealer:

As one of our dealers, you can order our products without a minimum order amount. You will be charged the dealer cost price without a discount. Your entry into the recumbent sector is simple, straight forward, and without risk. Customer service and support are guaranteed through your qualified workshop. No specific contract is required, but you will not be listed in our online dealer index.

### Stockist Dealer:

You are already successful in the special vehicles sector. HP VELOTECHNIK represents a recognizable part of your product range. You know the value of emotions from an actual test ride during a personal consultation. In order to qualify as a stockist dealer, you must permanently have one or more of the specially discounted demo models available in your showroom. Mark your stockist dealer contract which models you want to be a stockist dealer, or with which models you want to broaden your portfolio of demo bikes.

---

# trade price list 2023/24 EURO

For all Stockist demo models orders and/or directly related parts, you will receive an immediate discount of 5 % on the standard dealer cost price. Already with three different demo models (or more) you will qualify for the stockist plus bonus program, with attractive reimbursements on your annual turn-over with HP VELOTECHNIK! For details please see page 8 for Stockist dealer contract. We will mention to your dealership in our dealer index and on the internet. No minimum annual turn-over requirements.

## Premium Dealer:

Special vehicles are an important part of growing your business. You offer an extensive range of competence for recumbent bicycles and trikes and can look back on a long and successful professional relationship with HP VELOTECHNIK. The active use of demo models is an integral part of your professional consultation, also facilitating the individual configuration of the customer's vehicle. In order to qualify for the premium dealer program, you permanently have five or more of the specially discounted demo models available in your showroom and you have an annual turn-over in excess of 40.000 € with our products.

For all of your premium demo model orders and/or directly related parts, you receive an immediate discount of 10 % on the standard dealer price. For all other models, where you do not have a demo, you receive an immediate discount of 5 % on the standard dealer price.

In addition to listing you in our dealer index and on the internet, we support you with individual marketing and sales initiatives. We direct consumers inquiring for brochures directly to your dealership.

The three-step premium dealer bonus program offers you the possibility of attractive reimbursements based on annual turn-over with our product range.

Please do not hesitate to contact us for further information regarding our attractive conditions based on a HP VELOTECHNIK premium dealer contract – your sales representative is glad to help.

## HP VELOTECHNIK's demo model program

The test ride experience for the HP VELOTECHNIK customer is of exceptional importance for the personal discussion and the purchasing decision. A portfolio of demo models has a significant impact on the sales success of HP VELOTECHNIK products. A well stocked showroom with HP VELOTECHNIK demo models enhances ties to existing customers and generates interest and activates new customer groups.

For our stockist and premium dealers, we make it easy for you to have technically up-to-date demo models. We offer an additional discount of 6 % to the respective stockist or premium dealer cost price for the demo models for which:

- ✓ the contract dealer orders for the first time allowing them to broaden their HP VELOTECHNIK portfolio to address new groups of customers. This covers existing models just as well as new models,
  - ✓ models have been technically altered or have new innovations, thus having a measurable impact on the customers riding experience, and which therefore had to be renewed,
  - ✓ models have reached the end of the 5<sup>th</sup> year of the demo model lifespan, and therefore need to be renewed.
- Generally, the accessories options, technical components and even the riding experience require a model change for demo purposes after 5 years.

Our contract dealer benefit in more than one way from upgrading and keeping up-to-date their demo models since an up-to-date demo model range not only attracts customers, but also ensures the discount conditions.

## HP VELOTECHNIK's custom-build program

**With our modular system,** you can offer your customers an individually configured bicycles. The options listed in the price lists are alternatives to the standard equipment, while the prices are upgrades for these changes.

The *Streetmachine Gte*, for example, offers over 150,000 different combinations of gears, brakes, springs, frame, handlebars, colours and suspension.

Additionally, there are the many accessory items that we have ready for your customers. This variety is made possible since each bike is handmade to order. Apart from the variations and options offered, we cannot provide parts that we do not offer in our extensive program - the logistics required for this would increase the price for everyone.

**If you still wish other components, no problem!** We will be happy to supply you with a frame kit that includes all the components specific to a recumbent bicycle. The fork and the headset for a two wheeler or the chassis on a trike come pre-assembled. You only have to add wheels, drivetrain and brakes according to your wishes.

**Omitting parts?** Yes, but there is a lot of work, because the mechanic has to be informed, parts lists have to be changed, costs have to be recalculated. Therefore: Better not. In individual cases, however, we will be happy to help you with this after a consultation. We credit a maximum of 70% of the parts price for the omitted parts.

Special colours? Choose from hundreds of colours! Our recumbent bike frames can be powder-coated in almost all RAL colours. When ordering, we need the exact RAL colour number and name. Colour variations may happen due to technical reasons outside of our control and are not considered to be a warranty issue. The delivery time may be longer.

## HP VELOTECHNIK's Special Edition models

Our pre-configured Special Edition models are based on our best-selling tricycles *Scorpion fs 20*, *Scorpion fs 26*, as well as *Scorpion plus 20* and *Scorpion plus 26* - new to the range is the *Delta tx*. All models of the *Scorpion* product family are available with a SHIMANO STEPS system, *Scorpion fs 20* and *Scorpion fs 26* are additionally available without e-assist. The new *Delta tx SE* model is available exclusively as a pedelec based on a BAFANG M300 motor system.

All *Special Edition* models are characterized by the following features:

- ✓ **Preconfigured trikes based on our best-selling models** - spec'd for their target group.
- ✓ **Fully equipped which leaves hardly anything to be desired.** Each trike can be further customized for your client, e.g. with special pedals or additional comfort features.
- ✓ **Separate Special Edition order sheets** for simplified, fast ordering process.
- ✓ **Price advantage** compared to a custom-built trike with the same spec.

Customizations need to be done by your mechanics – additionally order parts will be put in the shipping box without being mounted.

All *Special Edition* models are available for ordering with the same lead times as custom-built trikes throughout the year.

## HP VELOTECHNIK's pre-order program

Exclusively for our pre-configured *Special Edition* models, we offer a pre-order program for the model year 2023/24. The pre-order option is expressly understood as an extension and addition to our existing ordering process. The pre-order offers you as a dealer tangible advantage, such as an attractive pre-order discount and an assured availability for the pre-ordered and confirmed *Special Edition* models.

Choose any number of the *Special Edition* models, however, at least one trike needs to be a Pedelec. You can focus on one model or select several models according to your requirements for the remaining vehicles.

The number of delivery dates depends on the number of units of your pre-order. We can ship a pre-order of four to six units in two delivery dates. A pre-order of seven to eight units is delivered in three delivery dates. You specify the distribution among the delivery dates when you place your pre-order. Irrespective of the general availability of the *Special Edition* models, which are available as pre-assembled vehicles while stocks last, you will receive your pre-ordered and confirmed models even if they are already sold out for immediate orders.

The most important key points of the HP VELOTECHNIK pre-order program 2024:

- ✓ **Pre-order dates:** 01 June – 31 August 2023
- ✓ **Pre-order models:** all *Special Edition* models
- ✓ **Pre-order discount:** in addition to the 2024 authorized dealer discounts, we guarantee a pre-order discount of 5%.
- ✓ **Pre-order volume:** at least 4 *Special Edition* trikes, including one Pedelec. The pre-order is limited to a total of 8 units.
- ✓ **Delivery dates:** for a pre-order of 4 to 6 bikes, the first partial delivery will take place in calendar week 08/24 and the second partial delivery in calendar week 12/2024 OR in calendar week 18/2024.  
For a pre-order of 7 to 8 bikes, the first partial delivery will take place in calendar week 08/2024, the second partial delivery in calendar week 12/2024 and the last partial delivery in calendar week 18/2024.

You decide on the allocation of the models to the delivery dates when submitting the pre-order.

Your personal HP VELOTECHNIK representative (see page 2) will be happy to answer any questions you may have about the attractive possibilities of our pre-order program.

## How to order?

Have you made your choice? All you've got to do is send us your order either by email to [sales@hpvelotechnik.com](mailto:sales@hpvelotechnik.com) or fax at +49 6192 – 97 99 2-299.

**Bike orders:** When ordering from our modular ordering system please always put all relevant information clearly in writing and send them to us by fax or e-mail. Ideally you would use a clearly readable HP VELOTECHNIK order sheet (you can find these at the end of this document and as download version at the dealer area on our homepage), filled out and marked in the appropriate boxes.

If this not possible, please ensure you list all HP VELOTECHNIK part numbers in addition to the vital information such as customer number, your reference, address, etc.

Two working days after your order has reached us, you usually will receive an order confirmation with the planned shipping date, listing your configuration choices. Please check the order carefully. In case of discrepancies or questions, please contact us as soon as possible, at latest after two days. Later changes will delay your shipping date and can lead to additional costs.

Deliveries are covered by our general terms and conditions (GTC, see page 36).

# trade price list 2023/24 EURO

## Terms and conditions

**Prices:** All prices listed in EURO. Incoterm: Ex Works (EXW) Kriftel, Germany. Suggested retail prices include German value added tax (VAT) of 19 % – you might need to adjust the suggested retail prices according to your countries VAT regulations. All trades will be governed by German law and our general terms and conditions (GTC, see page 36) which shall be substantial part of any contract. The latest version of our price list is valid only.

**This trade price list is valid for all International orders except from USA. Please ask for our USA trade price list if required.**

## Shipping

Within Europe parts are delivered by UPS, bikes and framesets are delivered by shipping forwarder.

Due to European shipping regulations, individual shipping of hazardous goods such as batteries for our electric motor assist systems or retrofit kits are processed by an authorized forwarder (European Union, Switzerland and Norway) for a higher rate. Batteries as assembled parts of a bike are permitted to be shipped with the bike without any upcharge (European Union, Switzerland and Norway)

Delivery costs:	within the EU:	parts	up to 8 kg	EUR 24,90	up to 20 kg	EUR 34,90
		bikes	1 bike	EUR 155,00	2 bikes	EUR 159,00
		hazardous goods	up to 30 kg	EUR 139,00		
	Switzerland/Norway:	parts	up to 8 kg	EUR 39,90	up to 20 kg	EUR 52,90
		bikes	1 bike	EUR 209,00	2 bikes	EUR 299,00
		hazardous goods	up to 30 kg	EUR 139,00		
	United Kingdom:	parts	up to 8 kg	EUR 39,90	up to 20 kg	EUR 52,90
		bikes:	1 bike	EUR 429,00	2 bikes	EUR 489,00
		hazardous goods	up to 30 kg	EUR 139,00		
	Canada:	parts:	up to 20 kg	EUR 195,00		
		bikes:	1 bike	EUR 309,00	2 bikes	EUR 585,00
		hazardous goods	1 battery	EUR 189,00		
			2 batteries	EUR 229,00		
			3 batteries	EUR 245,00		
			4 batteries	EUR 289,00		
Asia, Africa, Australia, New Zealand:	parts:	up to 20kg	EUR 399,00			
	bikes:	per bike	EUR 549,00			
	hazardous goods	1 battery	EUR 209,00			
		2 batteries	EUR 279,00			
		3 batteries	EUR 309,00			
		4 batteries	EUR 399,00			

### Important note for all overseas shipments:

Due to International air freight regulations we have to add a hazardous goods upcharge following the number of batteries shown above to all overseas shipping costs of bikes with electric motor assist (aka. pedelec). The batteries have to be shipped compulsory with a dedicated hazardous goods shipment and can't go with the bike. That is to say the total shipping costs of a pedelec are the bike shipping costs plus the shipping costs of the battery/batteries.

Import duties will be charged directly to you by the forwarder.

## Payment

We require an advance payment. You can remit payment by bank transfer. Please instruct your bank to effect all payments in Euro in our favour to our bank:

<b>Bank:</b>	<b>Taunus-Sparkasse, Bad Homburg</b>
<b>IBAN:</b>	<b>DE 82 51250000 0042300071</b>
<b>BIC/SWIFT-Code:</b>	<b>HELADEF1TSK</b>
<b>Beneficiary:</b>	<b>HP VELOTECHNIK GmbH &amp; Co KG, Kapellenstr. 49, 65830 Kriftel, Germany</b>

Please make sure that all banking costs are charged to your account (tick "OUR" in the appropriate section), as we will claim back any transfer charges deducted from our invoice amount.

## Warranty claims / New bike guarantee

**Please check your shipment** directly after receipt and contact your local forwarder immediately in case of any damage. Make sure to take pictures and have the forwarder take a note on the delivery documents of potential damage of your shipment. Once you open the box, please check if all parts noted on the delivery note/invoice are part of your shipment. If not, please contact your sales representative within 10 days after the receipt of your shipment.

**For a quick processing of anomalies of pedelecs systems** we recommend to clarify the possible solutions directly with the SHIMANO STEPS or *neodrives* service teams. Of course, the HP VELOTECHNIK technical team is also directly available to support you.

**We reimburse labour** according to the standard time list of the German bicycle associations based on a net labour value (= 6 minutes) of 5,90 € (10 labour values = 1 hour). If possible, please contact us beforehand in order to discuss a quick and customer-friendly solution to the problem for all parties.

**Please contact your sales representative** before returning any products. It's our aim to support you in the best possible way with advice, exchange of products, or alternative solutions to avoid any unnecessary, costly return shipments and to ensure a fast and satisfying solution for your consumer. Please have the product's serial number, date of purchase, and a detailed explanation of the problem. Your support on this is greatly appreciated.

**HP VELOTECHNIK offers a 10-years limited warranty** on the frame for the original purchaser of a new product according to our warranty regulations. To benefit from this warranty, the warranty registration form has to be completed and returned together with a copy of the proof of purchase within 4 weeks after the purchase. All details and the warranty registration form shall be found in the user manual that is part of the product. Warranty terms are printed in the user manual; the most up-to-date version to be found at <https://www.hpvelotechnik.com/en/service/10-years-warranty/>.

Please assist your customer and send us the warranty registration form and a copy of the proof of purchase immediately after handing-over the product. You can use either letter, e-mail, or fax

## Abbreviation of the HP VELOTECHNIK models

In this price list as well as in the corresponding order sheets we use the following abbreviation for our models

<b>GHF:</b>	<b>Grasshopper fx</b> foldable recumbent 20"/20"
<b>SMGT:</b>	<b>Streetmachine Gte</b> recumbent 20"/26"
<b>SPM:</b>	<b>Speedmachine</b> recumbent 20"/26"
<b>SPE:</b>	<b>Speedmachine S-Pedelec</b> recumbent 20"/26"

## HP VELOTECHNIK authorized stockist dealer contract

release May 2022

Please fill out, sign and return to HP VELOTECHNIK to apply for the stockist dealer status. This agreement is not valid until signed by both parties.

Contract between: HP VELOTECHNIK GmbH & Co. KG, Kapellenstr. 49, 65830 Kriftel, Germany (from here on known as HP VELOTECHNIK) and the following dealer (from here on known as the dealer):

shop name: \_\_\_\_\_ your customer-#: **K** \_ \_ \_ \_ \_

full Address: \_\_\_\_\_

ZIP/town/state: \_\_\_\_\_

Phone/e-mail/web: \_\_\_\_\_

This contract is concluded on the basis of our GTC and replaces all previous authorized stockist dealer contracts or any agreement on pricing.

**1.) Reason for contract:** HP VELOTECHNIK and the dealer agree on certain conditions with regards to the purchase of specified recumbent bicycles from the HP VELOTECHNIK range. The dealer achieves authorized dealer status for the following ticked/checked recumbent bicycle/trike models.

<input type="checkbox"/> Grasshopper fx	<input type="checkbox"/> Streetmachine Gte	<input type="checkbox"/> Speedmachine	<input type="checkbox"/> Speedmachine S-Pedelec
<input type="checkbox"/> Delta tx <i>new</i>			
<input type="checkbox"/> Gekko fxs	<input type="checkbox"/> Gekko fx 20	<input type="checkbox"/> Gekko 26	<input type="checkbox"/> Gekko fx 26
<input type="checkbox"/> Scorpion 2	<input type="checkbox"/> Scorpion fx 2	<input type="checkbox"/> Scorpion fs 20	<input type="checkbox"/> Scorpion fs 26 / Scorpion fs 26 Enduro
<input type="checkbox"/> Scorpion fs 26 S-Pedelec	<input type="checkbox"/> Scorpion plus 20	<input type="checkbox"/> Scorpion plus 26	<input type="checkbox"/> Hand-on-Cycle (HOC)

The ticked/checked models will be known from here on as the **authorized dealer demo models (a.d.d.m.)**. If the Scorpion fs 26 S-Pedelec is chosen as an a.d.d.m. then the agreed discounts will also apply to the models Scorpion fs 26 and Scorpion fs 26 Enduro. If the Speedmachine S-Pedelec is chosen as an a.d.d.m. then the agreed discounts will also apply to the model Speedmachine.

**2.) Demo bikes.** To give interested customers the opportunity to test-ride the bikes thoroughly, each of the chosen models will be made available as demo bikes over the entire contract period. If fundamental technical changes take place, which HP-Velotechnik will inform the dealer about, or at the end of the 5<sup>th</sup> year of the consecutive contracts, a re-order at the beginning of the next consecutive contract year is necessary. If a demo bike is sold a new demo bike must be ordered to guarantee on-going availability for test rides and to retain the stockist dealer status for this model.

If a new demo bike is purchased an extra **demo bike first buy discount** of **6 %** will be subtracted from the authorized dealer trade price (see point 3). This only applies if the model is bought for the first time or if the model that is to be replaced is not in the current product line-up any longer (and/or at the end of the fifth year or earlier if fundamental technical changes have taken place which make a replacement of the a.d.d.m. necessary at the discretion of HP VELOTECHNIK).

If the dealer sells the demo model prior to the end of its demo run-time there will be no extra demo bike first buy discount given for the replacing of that particular model.

Currently the dealer has the following demo bikes in his line-up:

model:					
frame no:					
date of purchase:					

--- please fill in ---

**3.) Discounts.** To reward extra efforts by guaranteeing the constant availability of at least one a.d.d.m. as test bikes the dealer is rewarded with an extra **5 %** discount to be subtracted from the standard dealer price. Other models can be purchased at the standard dealer rate, unless the dealer wants these to be dedicated a.d.d.m. too. The discounts apply to orders placed from the contract start date onwards, but not to orders placed prior to the start date or already received orders. Discounts are only valid for a.d.d.m.'s and directly related parts!

**4.) Authorized dealer Plus bonus program.** If a dealer constantly stocks at least three a.d.d.m. from the HP VELOTECHNIK program as demo bikes and reaches a minimum of € 25.000 net turnover (not including transport costs) a retro-active credit note of **3 %** based on the net annual turnover (not including transport costs) will be awarded in the first quarter of the following year.

**5.) No minimum turnover.** The dealer is not contractually obliged to purchase products/ goods to a set annual turnover.

**6.) Assembly.** The dealer is responsible for the complete assembly and detailed checks of all complete bikes and frame sets prior to being handed over to the end customer. The dealer keeps a record of the customer in case of any product recalls. The delivery of bikes via courier or postal service to the customer is not permitted.

**7.) Payment delay.** HP VELOTECHNIK reserves the right to cancel the contract without prior notice and before the contract duration has come to an end if payments from the dealer are delayed.

**8.) Confirmation of arrival:** For deliveries within the EU, when requested to do so by HP VELOTECHNIK, the dealer undertakes to confirm the receipt of the goods (confirmation of arrival / Gelangensbestätigung) upon presentation of the respective invoices. If the dealer does not comply with this obligation within 3 months after delivery, we are entitled to invoice the current value added tax valid in Germany. It is then incumbent on the customer to have the VAT paid refunded by his tax authority in the course of a VAT refund procedure.

**9.) Contract duration** is the calendar year. The contract automatically ends on the 31<sup>st</sup> December. To secure discounts for the following calendar year the dealer has to send in a new authorized dealer contract before placing any orders. If the dealer doesn't fulfill his contractual obligations all given discounts for the calendar year have to be paid back and HP VELOTECHNIK is entitled to cancel the contract without further notice. All contracts are based on the terms and conditions of HP VELOTECHNIK which have to be acknowledged by the dealer prior to signing the contract.

## pedelec retrofit kits and parts

**Important note for installing retrofit kits on new bikes and trikes:** By using the retrofit kits, the dealer must declare CE conformity and ensure compliance with the Machinery Directive. This is not necessary if the vehicle was already equipped with the identical drive system at the factory. On request, HP VELOTECHNIK will carry out CE-compliant retrofitting at the factory for specialist dealers.

STEPS retrofitting only for HP Trikes and inhouse at HP VELOTECHNIK with additional assembly charge. Please give us the following information when ordering a retrofit kit: model, built year

**standard assembly charge for an aftermarket STEPS or NEODRIVES retrofit kit** CE-

compliant installation of a retrofit kit in an HP VELOTECHNIK bike, at HP VELOTECHNIK's workshop  
 The HP VELOTECHNIK vehicle must be delivered in a clean, perfectly operating condition. This standard assembly charge is only for the drive unit and all of its applicable parts. If further parts are required (ie. a different lighting system, you will receive an estimate of the further charges. Transport costs are not included.

STUMBAU 499,00 **to be offered by dealer**

## General Terms and Conditions

### of HP Velotechnik GmbH & Co. KG for business relations with entrepreneurs as buyers

#### 1 Applicability, Form

- (1) These General Terms and Conditions ("GTC") apply to all our business relationships with our customers ("Buyer"). The GTC shall apply only if the buyer is an entrepreneur (pursuant to Section 14 of the German Civil Code (BGB)).
- (2) The GTC apply especially to contracts for the sale and/or delivery of movable items ("Goods"), regardless of whether we produce the Goods or purchase them from upstream suppliers. Unless agreed otherwise, these GTC shall apply in the version valid at the time of the Buyer's order or in the version last communicated to the Buyer in text form as a framework agreement also for future contracts of the same type, without the need for us to again make reference to them in every individual case.
- (3) Our GTC shall apply exclusively. Deviating, conflicting or supplementary general terms and conditions of the Buyer shall only become part of the contract if and to the extent that we have expressly approved their applicability. This requirement for approval shall always apply, even if, for example, we perform the delivery to the Buyer without any reservations even though we are aware of the Buyer's GTC.
- (4) Individual agreements with the Buyer that are made in individual cases (including side agreements, supplements and amendments) shall always have priority over these GTC. Provided that no counter-evidence is furnished, a written contract or our written confirmation shall be authoritative as far as the content of such agreements is concerned.
- (5) Legally relevant declarations and notifications by the Buyer with regard to the contract (e.g. deadlines, defect reports, rescission or reduction) shall be made in writing or in text form (e.g. letter, e-mail, fax). Statutory formal requirements and requests for further evidence, especially in the case of doubts concerning the identification of the party making the declaration, may apply.
- (6) References to the applicability of statutory regulations only serve clarification purposes. The statutory regulations shall apply even without such clarification, provided they are not directly modified or expressly excluded in these GTC.

#### 2 Contract Conclusion

- (1) Our offers are for information only and are subject to confirmation. This shall apply even if we provided the Buyer with catalogues, technical documentation (e.g. drawings, plans, calculations, references to DIN standards), other product descriptions or documents (also in electronic form), to which we retain all property rights and copyrights. Measurements, weights, figures and other data are subject to confirmation. They may be changed at any time and without prior notice.
- (2) The Buyer's order for Goods constitutes a binding contract offer. Unless the order provides otherwise, we may accept this contract offer within two weeks of our receipt.
- (3) The acceptance may be declared in writing (e.g. by means of an order confirmation) or by delivering the Goods to the Buyer.

#### 3 Delivery Period, Default of Delivery

- (1) We will specify the delivery period when we accept the order. If nothing is specified, the delivery period will be approximately six weeks from the conclusion of the contract. However, delivery prior to the end of the said delivery period is possible at all times.
- (2) Should we be unable to comply with binding delivery periods for reasons for which we are not responsible (non-availability of the Goods or services), we will inform the Buyer of this without delay and communicate the prospective new delivery period. Should we again be unable to comply with the new delivery period for reasons for which we are not responsible (non-availability of the Goods or services), we will again inform the Buyer of this without delay and specify the respective new delivery period. The same shall apply if we should again be unable to perform the delivery within this period for reasons for which we are not responsible. If the Goods or services are again not available even within the last-mentioned delivery period, we may rescind the contract in full or in part. In this case, we will without delay refund any consideration already paid by the Buyer. In this context, the event of non-availability of the Goods or services includes, but is not limited to our supplier's failure to supply us in due time, in case we have concluded a congruent cover transaction, if neither we nor our supplier is at fault or if we are under no procurement obligation in the specific case.
- (3) The onset of our default of delivery shall be governed by the statutory provisions. In any case, however, a reminder by the Buyer shall be necessary.
- (4) The Buyer's rights pursuant to section 8 of these GTC and our statutory rights, especially in the event of exclusion of the performance obligation (e.g. because the performance and/or cure is not possible and/or cannot reasonably be expected) remain unaffected.

#### 4 Delivery, Risk Transfer, Acceptance, Default of Acceptance

- (1) The delivery will take place ex warehouse, which is also the place of performance for the delivery and any cure. At the request and at the expense of the Buyer, the Goods will be sent to another destination (despatch sale). Unless agreed otherwise, we may determine the shipment method (especially freight company, shipment method, packaging) at our own discretion. We shall be entitled to make partial deliveries.
- (2) The risk of accidental loss and accidental deterioration of the Goods will pass to the Buyer at the latest upon handover. However,

in the case of a despatch sale, the risk of accidental loss and accidental deterioration of the Goods as well as the risk of delay will pass upon surrender of the Goods to the forwarder, carrier or other person or institution responsible for the execution of the despatch. If an acceptance procedure has been agreed, it shall be authoritative for the risk transfer. Apart from this, the statutory regulations of the law governing contracts to produce a work shall apply in case an acceptance procedure has been agreed. Default of acceptance by the Buyer shall have the same effect as the handover or acceptance.

(3) If the Buyer is in default of acceptance, if the Buyer fails to perform a collaboration act or if our delivery is delayed for other reasons for which the Buyer is responsible, we may demand compensation for the incurred loss including additional expenses (e.g. storage costs). For this, we will charge lump-sum compensation amounting to €25 per calendar day starting from the delivery period or, if no delivery period has been determined, as of the notice that the Goods are ready for shipment.

(4) Our right to furnish evidence of greater damage and our statutory claims (including but not limited to reimbursement of extra expenses, due compensation, termination) remain unaffected; however, the lump sum will be offset against any additional monetary claims. The Buyer may furnish evidence that we did not incur any damage or that the damage we incurred was much lower.

#### 5 Prices and Payment Terms

- (1) Unless agreed otherwise in the individual case, the prices valid at the conclusion of the contract shall apply, namely ex warehouse, plus statutory value-added tax. When new list prices are published, all previous price lists and agreements will expire. This shall apply even if the Buyer does not have the new price list.
- (2) If the delivery takes place more than three months after the conclusion of the contract, we may, in the event of price increases of our suppliers or unexpected increases in labour and transport costs, demand renegotiation of the prices. We shall only be bound to the agreed price for the agreed delivery period, but at least for three months. If the Buyer is in default of acceptance, we may charge the price applicable on the date of delivery, even if a fixed price had been agreed.
- (3) In the event of a despatch sale (section 4 (1)), the transport costs ex warehouse and the cost of any transport insurance requested by the Buyer shall be borne by the Buyer. If we do not bill the actual transport costs incurred in the individual case, a lump-sum transport fee (without transport insurance) will be deemed agreed in the amount specified in the reseller price list valid at the respective time. Any customs duties, fees, taxes and other public charges shall be borne by the Buyer.
- (4) The purchase price shall be due and payable within eight days of the issue of the invoice and delivery or acceptance of the Goods. However, we may at all times – even within the scope of a current business relationship – decide to deliver in full or in part only against advance payment. We will declare such a reservation in the order confirmation, at the latest.
- (5) Upon expiry of the aforesaid payment period, the Buyer will fall into arrears. While the Buyer is in arrears, the purchase price shall be subject to interest at the applicable statutory default interest rate. We reserve the right to assert a higher damage due to the arrears. Our claim to commercial maturity interest (Section 353 of the German Commercial Code (HGB)) vis-à-vis merchants remains unaffected.
- (6) In the event of late payment, we may charge a one-time lump sum of €40. This does not exclude our right to assert a higher damage due to the arrears.
- (7) The Buyer shall only have offsetting or retention rights insofar as his claim has been legally established or is undisputed. In the event of defects of the shipment, the counter-rights of the Buyer – especially pursuant to section 7 (6) sentence 2 of these GTC – remain unaffected.
- (8) If it becomes evident after the conclusion of the contract (e.g. due to a request for the institution of insolvency proceedings) that our entitlement to the purchase price is endangered by the lack of capacity of the Buyer, we shall be entitled pursuant to the statutory regulations to refuse to perform and – if necessary after granting a grace period – to rescind the contract (Section 321 of the German Civil Code (BGB)). In the case of contracts for the manufacturing of specific (custom-made) items, we may declare the rescission immediately; the statutory regulations concerning the dispensability of granting of a period remain unaffected.
- (9) Until full payment of all our current and future claims from the purchase contract and the entire current business relationship, we shall be under no obligation to continue to supply Goods and perform services.

#### 6 Retention of Title

- (1) Until full payment of all our current and future claims from the purchase contract and a current business relationship (collateralised claims), we reserve the title to the Goods sold.
- (2) The Goods subject to retention of title shall not be pledged to any third parties nor be assigned as collateral until the collateralised claims are fully paid. The Buyer shall without delay inform us in writing if a request for institution of insolvency proceedings is made or if third parties take recourse to the Goods that belong to us (e.g. by way of seizure).
- (3) In the event of Buyer behaviour in breach of the contract, especially in the event of non-payment of the purchase price due, we may rescind the contract according to the statutory regulations and/or request the surrender of the Goods on the basis of the retention of title. The request for surrender does not constitute a declaration of rescission; rather, we may merely request the

surrender of the Goods and reserve the right to rescind the contract. If the Buyer does not pay the purchase price due for payment, we may only assert these rights if we first unsuccessfully granted the Buyer a reasonable period for the payment or if such a period does not need to be granted pursuant to the statutory regulations.

(4) Until revocation pursuant to paragraph (c) below, the Buyer may resell and/or process the Goods subject to retention of title in the course of the normal business. In this case, the following provisions shall apply additionally.

(a) The retention of title covers any products resulting from the processing, blending or connecting of our Goods at the full value of these products, whose manufacturer we shall be deemed to be. Should third-party ownership rights be retained in the event of processing, blending or connection with third-party goods, we shall have co-ownership rights in the ratio of the invoice values of the processed, blended or connected Goods. Apart from this, the resulting product shall be subject to the same provisions as the Goods delivered subject to retention of title.

(b) The Buyer proactively assigns the claims against third parties, which arise from the resale of the Goods or of the product, to us in total or in the amount of our co-ownership share in accordance with the preceding paragraph as collateral. We hereby accept the assignment. The Buyer's obligations pursuant to subsection (2) shall apply despite the assignment of the claims.

(c) Besides us, the Buyer also remains authorised to collect the claim. We undertake not to collect the claim as long as the Buyer complies with his payment obligations towards us, his ability to act is not impaired and we do not assert the retention of title by exercising a right pursuant to subsection (3). If this is the case, we may request the Buyer to disclose the assigned claims and their debtors to us, provide all information needed for the collection, surrender the associated documents and inform the debtors (third parties) of the assignment. In this case, we may also revoke the Buyer's authorisation to resell and process the Goods subject to retention of title.

(d) If the recoverable value of the collateral exceeds our claims by more than 10%, we will release collateral of our choice at the request of the Buyer.

## 7 Claims of the Buyer for Defects

(1) The Buyer's rights in the event of defects in quality and title (including wrong and short delivery as well as incorrect assembly or deficient assembly instructions) shall be governed by the statutory regulations, unless something else is determined below. In all cases, the statutory special regulations remain unaffected in event of final delivery of the unprocessed Goods to a consumer, even if he has processed them. Claims from supplier recourse are excluded if the defective Goods have been processed by the Buyer or another entrepreneur, e.g. by way of installation in another product.

(2) Our liability for defects is based especially on the agreement concerning the properties of the Goods. Only the product descriptions and manufacturer specifications that are documented in the respective order confirmation and that have thus become part of the individual contract constitute an agreement concerning the properties of the Goods.

(3) If the properties were not agreed, it shall be determined according to the statutory regulations whether or not a defect is on hand. However, we disclaim any and all liability for public statements of the manufacturer or other third parties (e.g. advertising statements) that the Buyer did not draw our attention to as being decisive for his purchase.

(4) As a matter of principle, we shall not be liable for defects that the Buyer knows or does not know due to gross negligence at the conclusion of the contract. Moreover, for the Buyer to be able to assert claims for defects, he must have complied with his statutory inspection and reporting obligations (Sections 377, 381 of the German Commercial Code (HGB)). In the case of Goods intended for installation or further processing, the inspection shall in any case take place immediately prior to the processing. If a defect is detected upon delivery, inspection or at any time later on, it shall without delay be reported to us in writing. In any case, obvious defects shall be reported to us in writing within five working days from the delivery, and defects not detected during the inspection shall be reported to us in writing within the same period upon detection. If the Buyer fails to duly inspect the Goods and/or to report defects, our liability for the defect that was not reported, not reported in due time or not reported in an appropriate manner shall be excluded according to the statutory regulations.

(5) If the delivered Goods are defective, we may first choose whether to provide a cure by eliminating the defect (rectification) or by delivering items without any defects (replacement). Our right to refuse a cure under the statutory conditions remains unaffected.

(6) We may make the owed cure conditional upon the payment of the purchase price due for payment by the Buyer. However, the Buyer may withhold a portion of the purchase price that is reasonable in proportion to the defect.

(7) The Buyer shall give us the time and opportunity required for the cure owed and especially hand over the Goods objected to for inspection purposes. In the case of replacement, the Buyer shall return the defective items to us according to the statutory regulations. In case we were originally not under the obligation to install the items, the cure comprises neither the extraction of the defective items nor their reinstallation.

(8) As a matter of principle, the expenses required for the inspection and cure, including but not limited to transport, road, labour and material costs as well as any disassembly and installation costs, will be borne or reimbursed by us according to the statutory regulations, provided that a defect is actually on hand. Otherwise, we may demand reimbursement of the costs incurred from the unjustified defect elimination request (including but not limited to inspection and transport costs), unless the non-existence of the defect was not obvious to the Buyer.

(9) If the cure fails twice or a reasonable period to be determined by the Buyer for the cure passes without success or is not necessary according to the statutory regulations, the Buyer may rescind the purchase contract or reduce the purchase price. However, no right of rescission shall apply in the case of a minor defect.

(11) Even in the event of defects, claims of the Buyer for damages or for reimbursement of expenses made in vain shall exist only as provided for in section 8 and are otherwise excluded.

## 8 Other Liability

(1) Unless otherwise provided in these GTC including the following provisions, our liability in the event of a breach of contractual and non-contractual obligations shall be governed by the statutory regulations.

(2) We shall be liable for damages in the event of intent and gross negligence in the context of tort liability, no matter what the legal basis may be. In the event of slight negligence, we shall only be liable as follows, unless statutory limitations of liability apply (e.g. diligence in own matters, insignificant breach of obligations):

a) For damage from injury to life, body or health

b) For damage from the breach of a material contractual obligation (i.e. an obligation whose fulfilment is essential to the due performance of the contract and on whose fulfilment the other party may and does always rely); in this case, however, our liability shall be limited to the compensation of the foreseeable typical damage.

(3) The limitation of liability pursuant to subsection (2) shall also apply vis-à-vis third parties and in the event of a breach of obligation by persons (also for their benefit) for whose faults we are responsible by virtue of law. They shall not apply if a defect was maliciously concealed or if certain properties of the Goods had been guaranteed and for claims of the Buyer under the German Product Liability Act (ProdHaftG).

(4) In the case of a breach of an obligation that does not consist of a defect, the Buyer can only rescind or terminate the contract if we are responsible for the breach of the obligation. An unlimited right of termination of the Buyer (especially pursuant to Sections 650, 648 of the German Civil Code (BGB)) is excluded. Apart from this, the statutory conditions and legal consequences shall apply.

## 9 Statute of Limitations

(1) Notwithstanding Section 438 (1) No. 3 of the German Civil Code (BGB), the general limitation period for claims due to defects in quality and title shall be one year from the delivery. If an acceptance procedure has been agreed, the limitation period shall commence from the acceptance.

(2) The aforesaid limitation periods of purchasing law shall only apply to contractual and extracontractual claims of the Buyer due to a defect of the Goods, unless the application of the normal statutory limitation period (Sections 195, 199 of the German Civil Code (BGB)) would, in the individual case, result in a shorter limitation period. Claims of the Buyer for damages pursuant to section 8 (2) sentence 1 and sentence 2 (a) as well as under the German Product Liability Act (ProdHaftG) will only expire after the statutory limitation periods.

## 10 CRIF Clause

(1) For the purpose of credit assessment, CRIF GmbH, Leopoldstraße 244, 80807 München, Germany will make available the address and credit-worthiness data stored in its database relating to the buyer, including data determined on the basis of mathematical-statistical methods, provided that we have credibly demonstrated our legitimate interest.

## 11 Choice of Law, Jurisdiction

(1) These GTC and the contractual relationship between us and the Buyer shall be governed by the laws of the Federal Republic of Germany, under exclusion of international uniform law, including but not limited to the UN Convention on Contracts for the International Sale of Goods (CISG).

(2) If the Buyer is a merchant in the meaning of the German Commercial Code (HGB), a legal person under public law or a fund under public law, the exclusive domestic and international place of jurisdiction for all disputes arising directly or indirectly from the contractual relationship shall be the location of our registered office in Kriftel, Germany. The same shall apply if the Buyer is an entrepreneur in the meaning of Section 14 of the German Civil Code (BGB). In all cases, however, we shall also be entitled to take judicial action at the place of performance of the delivery obligation pursuant to these GTC or pursuant to an overriding individual agreement or at the Buyer's general place of jurisdiction. Overriding statutory regulations, especially with regard to exclusive jurisdiction, remain unaffected.
